**IMC 2009**  
**2009 ACM SIGCOMM**  
**Internet Measurement Conference**

November 4–6, 2009 • Chicago, Illinois, USA

On behalf of the organizing committee, we are delighted to invite you to attend the Ninth ACM Internet Measurement Conference, to be held in Chicago, Illinois, USA, on November 4-6, 2009. This year's conference continues its tradition of being the premier forum for the dissemination of research results on furthering our understanding of how to collect or analyze Internet measurements, to give insight into how the Internet behaves. The conference is organized as a single-track, full 3-day event.

Travel and registration information, as well as information on the technical programme is available at <http://www.imconf.net/imc-2009/>

We are looking forward to welcoming you in the Windy City to present and discuss interesting, thought-provoking ideas with other researchers and practitioners from institutions around the world.

CoNEXT 2009  
Fifth ACM Conference  
on Emerging Networking EXperiments  
and Technologies**

December 1-4, 2009 • Rome, Italy

On behalf of the organizing committee, we are delighted to invite you to attend the Fifth ACM International Conference on Emerging Networking EXperiments and Technologies, to be held in Rome, Italy during December 1-4, 2009. This year, CoNEXT continues its efforts of fostering scientific and technological exchanges between international research communities in networking. It aims to encourage open discussions on technology alternatives and become a forum accommodating different viewpoints and research approaches. To improve interaction among participants, the conference is organized as a single-track event.

The main conference will be preceded by two topical workshops (ReArch, U-Net) on new approaches to networking, and a student workshop, where the next generation of researchers present their recent achievements in an open and informal environment.

Travel and Registration information, as well as information on the technical program is available at <http://conferences.sigcomm.org/co-next/2009/>

We are looking forward to welcoming you in the Eternal City to present and discuss the ideas that will shape the networks of the future.

The **ACM Special Interest Group on Data Communication (SIGCOMM)** provides a forum for computing professionals involved in the vital field of data communication. SIGCOMM is also a community resource for those interested in network research, network standards, network history, and the educational aspects of networking. SIGCOMM co-sponsors with the IEEE the *ACM/IEEE Transactions on Networking* journal. SIGCOMM also co-sponsors many conferences and publishes the newsletter *Computer Communication Review (CCR)*, which includes SIGCOMM's annual conference proceedings. *CCR* publishes five times yearly.

The **Association for Computing Machinery (ACM)** is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, plus full access to the *Guide to Computing Literature*, full and unlimited access to thousands of online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
