## Welcome from the Program Chairs

The Communities and Technologies 2013 conference received 46 submissions for full papers and 12 submissions for research in progress papers. From these submissions, 17 papers were selected to appear at the conference (29%). All submitted papers were subjected to double blind peer review by an independent international program committee of 51 experts.

C&T 2013 takes place in cooperation with ACM SIGCHI. The C&T 2013 proceedings are published in the ACM International Conference Proceedings Series and by the European Society for Socially Embedded Technologies (EUSSET). They will be available from the ACM digital library (<http://dl.acm.org/>), and from the EUSSET C&T proceedings repository (<http://www.iisi.de/international-conferences-on-communities-and-technologies/>). The ISBN of the proceedings (in the ACM ICPS) is:

ISBN: 978-1-4503-2104-4

We appreciate the time and effort of our program committee in providing constructive and valuable feedback not only to the authors but also to the program chairs, and in shaping the proceedings. We would also like to thank all authors for their contributions to the conference program. We hope you will all enjoy the conference and beautiful Munich!
