Citation information

Proceedings of the 5th Information Interaction in Context Conference, Regensburg, Germany, 2014. IliX '14

Conference Chairs: David Elswiler and Bernd Ludwig

Program Chairs: Leif Azzopardi and Max L. Wilson

Program and General Chairs' Welcome

It is our pleasure to welcome you to the fifth Information Interaction in conteXt Conference, IliX2014 in Regensburg. The conference has been organised by the Chair for Information Science at the University of Regensburg. The conference follows four previous IliX symposia in Copenhagen ('06), London ('08), New Brunswick ('10) and Nijmegen ('12). These proceedings contain the refereed papers presented at the conference. The IliX conference explores the relationships between and within the contexts that affect information retrieval (IR) and information seeking, how these contexts impact how users behave with and around information, and how knowledge of information contexts and behaviours can be used to improve the design of interactive information systems.

The intention of IliX is to foster an integrated approach to information access by bringing together members of the research communities in information seeking behaviour, user interface design for IR systems and IR system design.

The PC selected 21 long papers from 45 submissions, 26 short papers and demos from 41 submissions. The review and selection process was coordinated by the PC chairs Leif Azzopardi and Max L. Wilson and three area chairs: Luanne Freund, Tetsuya Sakai, Peiling Wang.

In all, the main programme is diverse and international containing work by 119 authors, from 50 institutions, from 17 countries, in 5 continents!

For the accompanying doctoral consortium, organised by Ian Ruthven and David Losada, 11 students were accepted. The programme also includes keynote talks by Peter Pirolli, Gabriella Kazai and Francesco Ricci and tutorials by Leif Azzopardi, Nick Belkin, Diane Kelly, Jeremy Pickens and Max. L. Wilson. The conference additionally includes two workshops: 1) Searching as Learning, organised by Luanne Freund, Jacek Gwizdka, Preben Hansen, Jiyin He, Noriko Kando and Soo Young Rieh and 2) Searching4Fun organised by Karen Church, Morgan Harvey and Max L. Wilson.

We thank all authors for their submissions and the PC members and respective chairs for their efforts to create this balanced and varied program for IliX2014.

Organisation

Conference Chairs

David Elweiler	University of Regensburg
Bernd Ludwig	University of Regensburg

Program Chairs

Leif Azzopardi	University of Glasgow
Max L. Wilson	University of Nottingham

Area Chairs

<i>Systems</i>	
Tetsuya Sakai	Microsoft Research
<i>Interfaces</i>	
Luanne Freund	University of British Columbia
<i>Behaviours</i>	
Peiling Wang	University of Tennessee-Knoxville

Chair of the Local Organisation Committee

Markus Kattenbeck University of Regensburg

Proceedings and Submissions Chair, Webmaster

Morgan Harvey	University of Lugano
---------------	----------------------

Doctoral Consortium Chairs

Ian Ruthven	University of Strathclyde
David Losada	University of Santiago de Compostela

Honourary Chair

Gene Golovchinski (1965-2013)

Sponsors and Supporting Organisations
