WEH '08
Proceedings of the Fourth International Workshop on Exception Handling

Co-located with the Sixteenth ACM SIGSOFT International Symposium on the Foundations of Software Engineering

www.comp.lancs.ac.uk/computing/WEH.08/

November 14, 2008

Georgia Tech Hotel and Conference Center
Atlanta, Georgia, USA
Welcome to WEH '08

The content of these electronic proceedings is in Adobe Portable Document Format (PDF); thus, PDF reading software (such as Adobe Reader, available from www.adobe.com) is needed to view the content.

Copyright © 2008 by the Association for Computing Machinery, Inc. (ACM). Permission to make digital or hard copies of portions of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear this notice and the full citation on the first page. Copyright for components of this work owned by others than ACM must be honoured. Abstracting with credit is permitted. To copy otherwise, to republish, to post on servers or to redistribute to lists, requires prior specific permission and/or a fee. Request permission to republish from: Publications Dept., ACM, Inc. Fax +1 (212) 869-0481 or permissions@acm.org For other copying of articles that carry a code at the bottom of the first or last page, copying is permitted provided that the per-copy fee indicated in the code is paid through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923.

Notice to Past Authors of ACM-Published Articles

ACM intends to create a complete electronic archive of all articles and/or other material previously published by ACM. If you have written a work that has been previously published by ACM in any journal or conference proceedings prior to 1978, or any SIG Newsletter at any time, and you do NOT want this work to appear in the ACM Digital Library, please inform permissions@acm.org, stating the title of the work, the author(s), and where and when published.

ISBN: 978-1-60558-229-0
Table of Contents

Workshop organization .................................................................................................................................................. iv

• Experimenting with exception propagation mechanisms in service-oriented architecture ....................... 1
  A. Gorbenko (National Aerospace U., Ukraine), V. Kharchenko (Newcastle U., UK), A. Romanovsky (National Aerospace U., Ukraine), A. Mikhailichenko (Newcastle U., UK)

• Asynchronous exception propagation in blocked tasks .................................................................................. 8
  R. Krischer (U. of Waterloo, Canada), P.A. Buhr (U. of Waterloo, Canada)

• Extended exceptions for contingencies and their implications for the engineering process .................. 16
  T. van Ellen (BTC AG, Germany), W. Hasselbring (U. of Kiel, Germany)

• Specification of an exception handling system for a replicated agent environment .............................. 24
  C. Dony (CNRS and U. Montpelier 2, France), C. Tibermacine (CNRS and U. Montpelier 2, France),
  C. Urtado (Ecole des Mines d'Alès, France), S. Vauttier (Ecole des Mines d'Alès, France)

• On exceptions and the software development life cycle ............................................................................. 32
  J. Kienzle (McGill U., Canada)

• Improving robustness of evolving exceptional behaviour in executable models .................................. 39
  N. Cacho (Lancaster U., UK), T. Cottenier (Lancaster U., UK), A. Garcia (Lancaster U., UK)

• Explicit exception handling variability in component-based product line architectures ..................... 47
  I.A. Bertoncello (U. of Campinas, Brazil), M.O. Dias (U. of Campinas, Brazil), P.H.S. Brito (U. of Campinas, Brazil),
  C.M.F. Rubira (U. of Campinas, Brazil)

• Exception handling patterns for processes ............................................................................................... 55
  B.S. Lerner (Mount Holyoke College, USA), S. Christov (U. of Massachusetts, Amherst, USA), A. Wise (U. of Massachusetts, Amherst, USA),
  L.J. Osterweil (U. of Massachusetts, Amherst, USA)

• Why do developers neglect exception handling? ....................................................................................... 62
  H. Shah (Georgia Institute of Technology, USA), C. Goerg (Georgia Institute of Technology, USA),
  M.J. Harrold (Georgia Institute of Technology, USA)
Workshop Organization

Organizing Committee
Alessandro Garcia (Lancaster University, UK)
Alexander Romanovsky (University of Newcastle, UK)
Jörg Kienzle (McGill University, Canada)
Christophe Dony (Montpellier-II University, France)
Nelio Cacho (Lancaster University, UK)

Program Committee
William Bail (Mitre, USA)
Dan Berry (University of Waterloo, Canada)
Peter Allan Buhr (University of Waterloo, Canada)
Nelio Cacho (Lancaster University, UK)
Fernando Filho (State University of Pernambuco, Brazil)
Phil Koopman (Carnegie Mellon University, USA)
Axel van Lamsweerde (Catholic University of Louvain, Belgium)
Wolfgang de Meuter (Vrije University Brussels, Belgium)
Cecilia Rubira (University of Campinas, Brazil)
Richard D. Schlichting (AT&T, USA)
Francois Taiani (Lancaster University, UK)
Anand Tripathi (University of Minneapolis, USA)
Elena Troubitsyna (Aabo Akademi, Finland)
